Sellers.

Sellers are firm
 Sellers are giving way
 Sellers must give way
 Caused sellers to advance rates
 At present we are not sellers
 I (we) think sellers will accept if offer is renewed
 Sellers want to stop —
 Sellers want to stop goods in transitu
 Refer your sellers to —

Selling.

Are you selling
 I am (we are) selling
 I am (we are) not selling
 Is he (are they) selling
 — (he is—they are) selling
 — (he is—they are) not selling
 If you are selling
 If you are not selling
 If — (he—they) is (are) selling
 If — (he—they) is (are) not selling
 Is (are) selling at
 Is (are) not selling now
 Stop selling
 Stop selling until further instructions
 Have stopped selling for the present
 Very large quantity selling now
 Very little selling now
 At what price(s) are you selling
 Selling at good price(s) at present
 Selling at bad price(s) at present
 Go on selling as quickly as possible
 Delay selling as long as possible
 Continue selling
 Continue selling, steadily trying to improve prices
 Have you any prospect of selling
 There is some prospect of selling
 There is a good prospect of selling by waiting a little
 There is no prospect of selling
 There is no prospect of selling at your price
 Are selling smartly
 Are selling languidly
 Are selling cautiously
 Prefer you selling, but if you cannot succeed deliver to —
 Recommend selling the cargo where it is
 Recommend selling the vessel as she lies
 Have not yet succeeded in selling
 Bears selling to depress the market
 Bears selling to cover their sales
 Bulls selling out their purchases
 What do you think of selling out purchases
 Think it best to wait a short time before selling out purchases

Send.

To send
 Can you send —
 Can most probably send you
 I (we) can send —
 I (we) cannot send —
 Will you send —
 I (we) will send —

Solvent.

Is (are) the following solvent
 Is (are) believed to be solvent
 Is (are) perfectly solvent
 Is (are) not considered solvent

Something.

Something is wrong with ——
 Something must be done with ——
 Something should be done with ——
 Something will be done with ——
 Something is being done with ——
 Something must be settled

Soon.

It is (they are) too soon
 Too soon
 Not soon enough
 Soon as possible
 Cannot be done too soon
 Quite soon enough
 Very soon
 Not so soon
 Soon as possible after its occurrence
 Must be removed as soon as possible
 Will be removed as soon as possible

Sorry.

I am (we are) very sorry
 I am (we are) very sorry to report ——
 Very sorry to hear ——
 Very sorry to see ——
 Very sorry you cannot ——
 Very sorry I (we) cannot come to your terms
 Very sorry I (we) cannot do business
 Very sorry to say you are too late

Sought.

Is (are) much sought after
 Is (are) not sought much after

Space.

What space is required
 What is the space occupied
 What is the floor-space occupied
 Space required —— cubic feet
 Space required —— tons' measurement
 Space required —— feet x —— feet
 Space required —— feet x —— feet x —— feet
 Floor space occupied —— feet x —— feet
 Space occupied —— feet x —— feet
 Space occupied —— feet x —— feet x —— feet
 Space occupied not to exceed —— feet x —— feet
 Space occupied not to exceed —— feet x —— feet x —— feet
 feet

Floor space is very valuable
 Space no object
 Avoid waste of space

Spare.

Can you spare ——
 I (we) can spare ——
 I (we) cannot spare ——
 If you can spare ——
 If you cannot spare ——
 I (we) may be able to spare ——

Spare—continued.

Do you know if — can spare —
 I (we) think — are able to spare —
 I (we) do not think — can spare —
 Might be able to spare —
 Cannot spare any other vessel

Specie.

Left to-day with — boxes specie for your port
 Left to-day with £ — specie for your port
 Left to-day with £ — specie to your consignment
 Has — specie on board
 Specie safely and correctly received
 Specie safely and correctly delivered
 Specie not received in accordance with particulars
 Specie does not agree with invoice
 Specie will be forwarded
 Specie will be forwarded to-morrow
 Specie will be forwarded by the —
 Specie will be recovered
 Some prospect of recovering the specie
 Some of the specie has been recovered
 Specie is recovered
 Specie not recoverable
 Specie saved
 Part of the specie saved
 Specie lost
 Part of specie lost

Specification.

Can you send specification
 I (we) can send specification
 I (we) cannot send specification
 Shall I (we) send specification
 Please send specification
 Send out specification soon as ready
 Send out specification without further delay
 Specification is being prepared
 Specification not ready, waiting instructions
 Not necessary to send specification
 Delay specification until you receive my (our) letter
 Delay specification until you hear from —
 Buyers will not close without a specification
 Buyers will not close without a specification and drawings
 If specification is sent, it shall have every attention
 Specification will be sent
 Specification will be sent out —
 Specification will be sent to-night
 Specification will be sent by next post (mail)
 Specification was sent by last post (mail)
 Specification received to-day
 Specification to hand
 Specification to hand, will reply in a day or two
 Specification and drawings do not tally
 Specification not to hand
 Specification not to hand, must have gone astray ; please send duplicate
 Please send duplicate specification
 Duplicate specification now on the way
 Please refer to specification
 Is (are) according to specification
 Is (are) not according to specification
 Specification sent is incorrect

Specification—continued.

Specification sent is incorrect, an amended copy will be sent
 Specification is right
 Specification is wrong
 Specification is too meagre
 Specification is too good, cheaper class work wanted; will keep the matter open till I (we) hear from you
 Specification is not good enough, better class work wanted; will keep the matter open till I (we) hear from you
 Specification is difficult to comply with in the following respect(s); may I (we) modify
 Specification must be strictly adhered to
 Specification may be modified as you propose
 Government specification
 Official specification

Speculation.

Will you join me (us) in the speculation
 I (we) will join you in the speculation
 I (we) cannot join you in the speculation
 Speculation looks well
 Speculation looks badly
 Speculation has turned out a success
 Speculation has turned out a loss
 Speculation is reported to be the cause
 Speculation in —— is reported to be the cause
 Bought for speculation
 Nothing but a speculation
 Be very careful, there is a great deal of speculation going on
 Be very careful how you deal with ——, he is (they are) speculating very heavily

Speculators.

Speculators are very active
 Speculators are very dull
 Speculators are buying smartly
 Speculators are selling out
 Speculators are overloaded
 Speculators are bare of stock
 Speculators are getting very anxious
 Speculators are holding all they can
 Speculators will be compelled to sell out shortly
 Speculators are strong on the market
 Speculators are weak on the market
 Speculators are operating for a rise
 Speculators are operating for a fall

Speed.

What is her speed on full steam
 Average speed per hour —— miles
 Average speed per hour about —— miles, but cannot be guaranteed
 Average speed per hour about —— knots
 Average speed per hour about —— knots, but cannot be guaranteed
 Speed to be guaranteed (—— knots per hour)
 Speed to be guaranteed (—— miles per hour)
 If speed can be guaranteed at not less than —— knots per hour
 If speed can be guaranteed at not less than —— miles per hour
 Speed guaranteed to be not less than —— knots per hour
 Speed guaranteed to be not less than —— miles per hour
 Speed cannot be guaranteed

Speed—continued.

If speed cannot be guaranteed

Unless speed can be guaranteed, the business will be off

The speed obtained was over — knots per hour

The speed obtained was over — miles per hour

Speed — knots per hour; a penalty of £ — for every half knot short of this attained on trial

Speed — miles per hour; a penalty of £ — for every half mile short of this attained on trial

Speed — revolutions per minute

Speed — strokes each way per minute

Maximum speed (— miles per hour)

Mean speed (— miles per hour)

Guaranteed speed (— miles per hour)

At ordinary speed

Speed no object

Split.

Sails split

Split the invoice

Will split the adventure with you

Will split the profit with you

Will split the loss with you

Will split the difference with you

Spoken.

— was spoken, all well

— reports having spoken — on the —, and wished to be reported as spoken with, all well

— reports having spoken the — on the —, and wished the following to be reported

Spring.

This spring

Last spring

Next spring

During the spring

Sprung.

Has sprung

Has sprung a leak

Rudder head sprung

Rudder head and stern post sprung

Squadron.

The — squadron arrived off here (at —)

The — squadron still remains here (at —)

The — squadron passed here (at —)

The — squadron has left for —

The — squadron disappeared during the night

There is a rumour the missing squadron is bound to —

Squall.

A heavy squall

Caught in a squall

Caught in a squall and greatly damaged

During a heavy squall

After a heavy squall

Caught in a squall and capsized, no lives lost

Caught in a squall and capsized, — lives lost

Caught in a squall and capsized and all top gear carried away

Caught in a squall and capsized; is now a total wreck

Caught in a squall and capsized; is now a total wreck, but no lives lost

Caught in a squall and capsized; is now derelict, no lives lost

Caught in a squall, capsized, and sank; — lives lost

Caught in a squall, capsized, and sank; no lives lost

Statement—continued.

Statement is correct
 Make up general statement
 Draw up a statement as soon as possible
 Will draw up a statement
 I (we) will draw up a statement
 The statement made is quite at variance with facts
 An official statement has been made, as follows
 No official statement has been made
 We maintain our previous statement
 We retract our previous statement
 According to your statement
 According to my (our) statement
 Not according to your statement
 Not according to my (our) statement
 The statement is official
 The statement is confirmed
 The statement is contradicted

Stay(ing).

Where will you stay (at ———)
 I (we) shall stay at ———
 Do not know where I (we) shall stay, but will wire you in due course
 Do you know where ——— is (are) staying
 ——— is (are) staying at ———
 Do not know where ——— is (are) staying
 Do not know where ——— is (are) staying, most probably ——— knows
 How much longer will ——— stay with you
 Do not stay
 Do not stay any longer
 Cannot stay any longer
 Will not stay any longer
 Stay until you have further instructions
 Will stay until ———

Steam.

Get up steam immediately
 Get up steam immediately and proceed to ———
 Now getting up steam
 Steam up, waiting your instructions
 Get up steam immediately and wait orders
 Blow off steam and wait further orders
 Cannot get up steam.

Steamer(s). (See Ship's Gear, &c. ; also p. 951.)

May I (we) ship per first steamer
 You may ship per first steamer
 You may ship per first steamer, failing that by following
 When will the steamer leave for ———
 Have you a steamer loading for ———
 Have steamer now here loading for ———
 Our next steamer for ——— will be the ———, now here discharging
 Our next steamer for ——— will be the ———, sailing about the ———
 Steamer for ——— will leave
 Steamer for ——— left
 No steamer loading
 No steamer loading, will a sailer do
 Steamer preferred
 Steamer preferred, but if none ready sailer will do
 No steamer loading here (for ———)

Stowage—continued.

Must have some small stowage
 Must have some small stowage before fixing
 If you can get sufficient small stowage you may fix
 If you cannot get sufficient small stowage must have better rate
 Can obtain the necessary small stowage
 Can give (get) required small stowage, if some allowance is made in the rate
 If you can give (get) the necessary small stowage, some allowance may be made if required
 Cannot obtain any small stowage
 Everything necessary for the good stowage of the cargo to be found by the ship
 Everything necessary for the good stowage of the cargo to be found by the charterer(s)

Stranded.

Slipped anchor and chain to avoid being stranded
 Is badly stranded
 Stranded on rocks
 Is stranded, but do not expect any damage
 Is stranded, will come off next tide
 Stranded and making water
 Is stranded at —, she has assistance
 Stranded at —, but was got afloat by —
 Is stranded at —, but will probably be got off after lightening
 Is stranded at —, but will probably be got off if weather keeps fine
 Is stranded at —, where she still remains
 Stranded at — and became a wreck, crew (and passengers) saved
 Stranded in the harbour, is in a critical position
 Stranded at the entrance of harbour, means are being taken to lighten and save her
 Stranded at —, is broken in the middle and it is thought there is no hope of floating her
 Stranded at —, cargo is being discharged to enable her to get afloat
 Stranded at —, and is expected to get off with little damage
 Stranded at —, is in a bad position, full of water, and likely to become a wreck
 Stranded at —, is full of water, bottom much damaged, will probably be a wreck
 Stranded at — during a gale, crew (and passengers) saved
 Stranded at — during a fog, every assistance has been sent
 Stranded at —, weather fine and sea smooth, will probably come off next tide
 Stranded at —, floated at high water and proceeded for destination apparently without damage
 Is severely strained, having stranded at —, bulged on both sides; will require recalking, and sheathing on the bottom renewed
 The captain denies having stranded

Stress.

Stress of weather
 Has been driven ashore by stress of weather
 Put in here through stress of weather
 Put into — through stress of weather
 Reported put into — through stress of weather

Strike(s)—continued.

Strike(s) commenced
 Strike(s) continue(s)
 Strike(s) ended
 Strike(s) excepted
 In event of strike
 No probability of a strike
 All business stopped by strikes
 Strike of workmen and/or others
 On strike
 Seamen on strike
 Colliers on strike
 Railway employes on strike
 Engineers on strike
 Labourers on strike
 Workmen on strike
 Miners on strike
 Caused by strikes of pitmen
 Caused by strikes of workmen and/or others
 Caused by strikes of —
 At a meeting of the masters it was determined to resist the strike
 At a meeting of the men it was determined to continue the strike
 The masters have given in, so the strike is at an end
 The men have given in, so the strike is at an end
 Is the strike expected to last long
 Strike is not expected to last long
 Strike is expected to last some time
 It is feared the strike will become general

Struck.

Has struck upon —
 Has been struck by a sea
 Has been struck by lightning
 Has been struck by an iceberg
 Has struck against a rock
 Has struck against a rock and greatly damaged her keel
 Struck something submerged and is leaking
 Struck on the bar, coming in
 Struck on the bar, going out
 Has struck on the bar and remains
 Struck on the —, came off, and sank in deep water
 Struck on a wreck
 Supposed struck sunken wreck
 Struck a sunken wreck or unknown reef, and sank shortly afterwards
 Workmen have struck for less hours
 Workmen have struck for higher wages
 Workmen have struck against the proposed alteration(s)

Sufficient.

Have you sufficient —
 I (we) have sufficient —
 I (we) have not sufficient —
 If you have sufficient —
 If you have not sufficient —
 Has (have) — (he—they) sufficient —
 — (he—they) has (have) sufficient —
 — (he—they) has (have) not sufficient —
 If — (he—they) has (have) sufficient —
 If — (he—they) has (have) not sufficient —
 Is it (are they) sufficient
 It is (they are) sufficient
 It is (they are) not sufficient
 There is not sufficient (for me—us)
 There is quite sufficient (for me—us)
 Have you sufficient cargo for —
 There is not sufficient cargo for —
 Reserving only sufficient
 Not having sufficient
 Have you sufficient to go on with
 There is sufficient to go on with
 There is not sufficient to go on with
 Will you have sufficient
 I (we) expect to get sufficient for our requirements, but none
 for sale
 Shall not have sufficient

Suggest.

I (we) beg to suggest
 — wish(es) to suggest
 Act as you suggest
 Act as they (—) suggest

Suggestion.

I (we) agree to your suggestion
 I (we) agree to —'s suggestion
 Very sorry cannot accept your suggestion
 Very sorry cannot accept —'s suggestion

Suicide.

Has committed suicide (by —)
 It is reported that — has committed suicide
 The jury have brought in a verdict of suicide during temporary
 insanity

Suit.

Will it (they) suit
 Do not suit
 To suit — (the —)
 To suit the goods you have already supplied
 To suit the goods he has (they have) already supplied
 To suit the goods you supplied —
 To suit the goods he (they) supplied
 Will it (they) suit (for —)
 It (they) will suit very well
 It (they) will not suit
 If it (they) will suit
 If it (they) will not suit
 Anything will suit
 Any kind will suit
 When will it suit you
 When will it suit —
 — will best suit me (us)

TO CODE TIME.

This Dial is arranged upon the 24 hours' system. The inner figure, circle 1 to 12 represents 1 to 12 o'clock A.M. ; 13 to 24, 1 to 12 o'clock P.M. ; the outer figure circle, the minutes ; and letter circle, the coding.

EXAMPLES : The lines K S notify 10.45 A.M.

„ Dotted lines P D, 3.10 P.M.

A1 CODE TIME TABLE.

Another simple method of denoting time by the 24 hours' system is by figures as follows :—State the hour and minutes, using the cypher O as a separator, thus :

H.	M.						
1.O.	5	close up and wire	105.	When received drop the separator O	and read	1. 5 =	1. 5 A.M.
10.O.	8	„ „	1008.	„ „ „ „	„ „	10. 8 =	10. 8 A.M.
12.O.	15	„ „	12015.	„ „ „ „	„ „	12. 15 =	12.15 midday
17.O.	26	„ „	17026.	„ „ „ „	„ „	17.26 =	5.26 P.M.
24.O.	40	„ „	24040.	„ „ „ „	„ „	24.40 =	12.40 midnight

To-day.

Early to-day
 Late to-day
 About noon to-day
 Any time to-day
 Have you to-day
 I (we) have to-day
 I (we) have not to-day
 May have to-day
 To-day and to-morrow
 To-day or to-morrow
 To-day or to-morrow, the former preferred
 To-day or to-morrow, the latter preferred

To-morrow.

Any time to-morrow
 To-morrow morning
 To-morrow afternoon
 Early to-morrow
 Late to-morrow
 Day after to-morrow
 Will you have to-morrow
 I (we) shall have to-morrow
 I (we) shall not have to-morrow
 May have to-morrow
 To-morrow and following day
 To-morrow or following day
 To-morrow or following day, former preferred
 To-morrow or following day, latter preferred

Ton(s). (See Quantities, &c.)

How much per ton
 At per ton
 At per ton of 20 cwt.
 At per ton of 1000 kilos.
 At per ton of 1015 kilos.
 At per ton of 40 cubic feet
 At per ton of cubic metre
 At per ton shipped
 At per ton delivered
 How many tons
 How many tons on board
 Has (have) about — tons on board
 Has (have) only — tons for your port
 Has (have) — tons
 Have in view about — tons of — for —, which we can
 secure at —
 Secure up to — tons
 Shall require about — tons
 — tons per week
 — tons per month

Tonnage.

What is the tonnage of —
 What is the d/w tonnage of vessel referred to
 What is the d/w tonnage of steamer referred to
 What is the d/w tonnage of sailer referred to
 Gross tonnage —
 Nett tonnage —
 Gross tonnage —, nett tonnage —
 Not to exceed ship's register tonnage
 D/w tonnage of vessel referred to is —
 D/w tonnage of steamer referred to is —

CODE NO CODE WORDS

Tonnage—continued.

41589	<i>Teeder</i>	D/w tonnage of sailer referred to is ——
41590	<i>Teekenpen</i>	Have you secured the necessary tonnage
41591	<i>Teelgrond</i>	Have you secured tonnage for last order
41592	<i>Teenboom</i>	Have secured the necessary tonnage
41593	<i>Teenbosch</i>	Have not secured the necessary tonnage
41594	<i>Teenwiig</i>	We are pressed for prompt steam tonnage
41595	<i>Teerbak</i>	We are pressed for prompt sailing tonnage
41596	<i>Teergeld</i>	I am (we are) open for tonnage at current rate(s)
41597	<i>Teerketel</i>	I am (we are) open for steam tonnage at current rate(s)
41598	<i>Teerkoker</i>	I am (we are) open for sailing tonnage at current rate(s)
41599	<i>Teerkost</i>	I (we) shall require steam tonnage up to —— tons

41601	<i>Teervat</i>	I (we) shall require sailing tonnage up to —— tons
41602	<i>Teesdalia</i>	I (we) shall require sailing tonnage up to —— quarters
41603	<i>Teetotal</i>	I (we) have secured on your account steam tonnage (up to ——)
41604	<i>Teffles</i>	I (we) have secured on your account sailing tonnage (up to ——)
41605	<i>Teflim</i>	I am (we are) endeavouring to secure the necessary tonnage
41606	<i>Tefranto</i>	I am (we are) in treaty for tonnage, to meet your wants
41607	<i>Tefroite</i>	No doubt you will be well supplied with tonnage
41608	<i>Tefrosia</i>	If you cannot secure tonnage at rate(s), please make counter offers
41609	<i>Tegamata</i>	Can you secure tonnage
41610	<i>Tegamino</i>	Can secure the necessary tonnage
41611	<i>Tegamone</i>	Can secure tonnage up to ——
41612	<i>Tegeates</i>	Cannot secure the necessary tonnage
41613	<i>Tegenaire</i>	Secure the necessary tonnage
41614	<i>Tegenbots</i>	Can you secure more tonnage
41615	<i>Tegendeur</i>	Can you secure more tonnage on the same terms and conditions
41616	<i>Tegendoop</i>	Can you place more tonnage
41617	<i>Tegeneten</i>	Can you place more tonnage on the same terms and conditions
41618	<i>Tegengalin</i>	I (we) can secure more tonnage
41619	<i>Tegengang</i>	I (we) can secure more tonnage on the same terms and conditions
41620	<i>Tegenglans</i>	I (we) can place more tonnage
41621	<i>Tegenkiel</i>	I (we) can secure more tonnage on better terms
41622	<i>Tegenover</i>	I (we) can place more tonnage on better terms
41623	<i>Tegenslag</i>	I (we) can place more tonnage on same terms and conditions
41624	<i>Tegenstem</i>	There is no doubt that I (we) can secure all the tonnage required
41625	<i>Tegenwind</i>	I (we) cannot make you any offers of tonnage at present
41626	<i>Tegenzin</i>	I (we) cannot secure more tonnage
41627	<i>Tegeremo</i>	I (we) cannot secure more tonnage on same terms and conditions
41628	<i>Tegesu</i>	I (we) cannot place more tonnage
41629	<i>Tegghia</i>	I (we) cannot place more tonnage on same terms and conditions
41630	<i>Tegillum</i>	I (we) cannot offer steam tonnage, but can offer sailing tonnage
41631	<i>Tegimenta</i>	I (we) cannot offer sailing tonnage, but can offer steam tonnage
41632	<i>Teglanum</i>	Is there any demand for tonnage
41633	<i>Tegliata</i>	All tonnage in the port is now engaged
41634	<i>Tegolaia</i>	No demand for tonnage
41635	<i>Tegora</i>	No demand for steam tonnage
41636	<i>Teguales</i>	No demand for sailing tonnage
41637	<i>Teguexin</i>	No more tonnage required
41638	<i>Teguillo</i>	Only moderate demand for tonnage

CODE NO	CODE WORDS	Tonnage—continued.
41639	<i>Tegulaire</i>	Tonnage is abundant
41640	<i>Tegule</i>	There is a good deal of seeking tonnage about
41641	<i>Tegument</i>	Suitable tonnage is scarce
41642	<i>Tegurium</i>	Secure more tonnage
41643	<i>Teichrose</i>	Offer more tonnage
41644	<i>Teiding</i>	No tonnage offering
41645	<i>Teifun</i>	Supply of tonnage greatly in excess of requirements
41646	<i>Teigartig</i>	Supply of tonnage greatly below requirements
41647	<i>Teigicht</i>	Tonnage is scarce, and a good demand prevails
41648	<i>Teignerie</i>	There is a good demand for tonnage
41649	<i>Teignes</i>	There is a good demand for steam tonnage
41650	<i>Teigneux</i>	There is a good demand for sailing tonnage
41651	<i>Teigrolle</i>	There is a good supply of tonnage and moderate demand
41652	<i>Teigtrog</i>	There is a moderate supply of tonnage
41653	<i>Teillage</i>	We look for an improved demand for tonnage
41654	<i>Teimar</i>	I (we) want the following tonnage —
41655	<i>Teindoux</i>	Sufficient tonnage on the spot for requirements
41656	<i>Teindre</i>	More than sufficient tonnage on the spot for requirements
41657	<i>Teinocere</i>	Please submit firm offers of tonnage and rates
41658	<i>Teintant</i>	Beg to submit following firm offers of tonnage and rates
41659	<i>Teinte</i>	Steam tonnage is in more demand than sailing
41660	<i>Teiroga</i>	Sailing tonnage is in more demand than steam
41661	<i>Teixugo</i>	All available tonnage of suitable size has been taken up
41662	<i>Tejado</i>	The unchartered tonnage is very light
41663	<i>Tejaroz</i>	The unchartered tonnage is very light and shippers will have to pay more money
41664	<i>Tejedores</i>	The advance in freights in your market has caused a good demand for ready tonnage
41665	<i>Tejerian</i>	Tonnage on the spot and close at hand is ample
41666	<i>Tejoila</i>	Tonnage on the spot and close at hand is ample, rates must decline
41667	<i>Tejuolos</i>	The demand for steam tonnage continues dull and weak, whilst the number of vessels disengaged in port has been increased by fresh arrivals
41668	<i>Tekel</i>	The demand for sailing tonnage is dull and weak, whilst the number of vessels disengaged in port has been increased by fresh arrivals
41669	<i>Telaccia</i>	Tonnage offering still much in excess of requirements, there being little stuff for shipment
41670	<i>Telagon</i>	Produce is comparatively scarce, there is an abundance of tonnage in port, and several vessels will have to leave in ballast
41671	<i>Telaretto</i>	Tonnage is very depressed, and suitable employment scarce for handy vessels
41672	<i>Telary</i>	It is very doubtful if further tonnage will be required this season
41673	<i>Telassar</i>	Looking about for more tonnage
41674	<i>Telchine</i>	Looking about for more steam tonnage
41675	<i>Telchinos</i>	Looking about for more sailing tonnage
41676	<i>Teleboes</i>	Petroleum tonnage is required
41677	<i>Telebolo</i>	Lumber tonnage is required
41678	<i>Telechia</i>	I (we) shall esteem your offer of steam tonnage for any of the following freights —
41679	<i>Telecles</i>	I (we) shall esteem your offer of sailing tonnage for any of the following freights —
41680	<i>Teledamus</i>	Require steam tonnage as follows ; please telegraph size and position
41681	<i>Telefia</i>	Require sailing tonnage as follows ; please telegraph size and position
41682	<i>Telefilo</i>	Have the following steam tonnage to offer —
41683	<i>Telefonia</i>	Have the following sailing tonnage to offer —

Tonnage capacity, all 10 per cent. more or less

Wait—continued.

Wait until Tuesday
 Wait until Wednesday
 Wait until Thursday
 Wait until Friday
 Wait until Saturday
 I (we) will wait steamer
 I (we) will wait sailing vessel
 I (we) will wait train
 I (we) will wait telegram (cable)
 I (we) will wait until
 I (we) will wait until Sunday
 I (we) will wait until Monday
 I (we) will wait until Tuesday
 I (we) will wait until Wednesday
 I (we) will wait until Thursday
 I (we) will wait until Friday
 I (we) will wait until Saturday

Waiting.

Why are you waiting
 I am (we are) waiting for ——
 I am (we are) not waiting
 Waiting orders
 Waiting advices
 Waiting cargo
 Waiting tonnage
 Waiting supplies
 Waiting opportunity
 Waiting for spring tides
 Is now waiting for sufficient water to proceed
 Waiting change of wind to proceed
 Is (are) waiting for ——
 Is it any use waiting longer
 Prefer waiting to see if matters will improve
 Prefer waiting until ——
 Prefer waiting a few days
 I am (we are) anxiously waiting
 Very sorry indeed to keep you waiting
 Will not improve by waiting
 Will most probably improve by waiting
 Hope to do better by waiting
 Are now waiting for improvement
 There is nothing to be gained by waiting longer

Want.

What do you want
 What does he (do they) want
 What are you likely to want
 How much (many) are you likely to want
 Shall want about ——
 Will advise you should we want more
 I (we) want ——
 I (we) do not want ——
 —— (he—they) want(s) ——
 —— (he—they) do(es) not want ——
 If you want ——
 If you only want ——
 If you do not want ——
 If —— (he—they) want(s) ——
 If —— (he—they) do(es) not want ——
 Why do you want ——
 Much in want of ——

Want—continued.

Buyers (dealers) not in want of —

Do you want any —

Do you want any more

Do you now want

Do not want any more at present

Do not want anything

In want of supplies

Apply to — for anything you want

Wanted.

Is (are) wanted immediately

Is (are) desperately wanted

Is (are) desperately wanted, make every effort

Is (are) wanted elsewhere

May be wanted elsewhere

Will most probably be wanted

Will be wanted shortly

Very little (few) wanted

Is (are) much wanted here (at —)

Is (are) very much wanted on the other side

War.

Rumours of war

It may lead to a war

In the event of war being declared —

In anticipation of war

Is there any prospect of war with —

There is no prospect of war

There is no foundation for rumours of war

All prospects of an immediate war are abandoned

The general impression created by the various published statements is that war will be averted

On all sides war is believed to be inevitable

Rumours and alarms, inseparable from the existence of war-like preparations, are beginning to circulate

The war party is apparently getting stronger

War is very probable between — and —

War is very imminent

Expect war will soon be declared with —

Warlike preparations are progressing

Owing to rumours of war

Owing to rumours of war, trade is in extreme depression

Great preparations are being made for war

Preparations for a general war (campaign) are being quietly but vigorously pushed forward

Has war been declared with —

War declared with —

War has commenced in earnest

The war continues

Have you anything new to report about the war

The war is evidently about to commence

Expect the war to continue for some time

The war is going on sharp and brisk

The war continues with increasing vigour

The war continues in a very desultory manner

It may lead to the termination of the war

The war is evidently about to terminate

There is every prospect of conclusion of the war

The war is virtually ended

There is a prospect of renewal of the war

There is no prospect of renewal of the war

Wreck—continued.

Is breaking up and will be a total wreck
 Has broken up and is now a total wreck
 — now given up as a total wreck
 Has now become a total wreck
 Is a total wreck
 Is a total wreck, captain and crew returning home
 The wreck of —
 I (we) think it best to sell the wreck as it lies
 Sell the wreck as it lies
 If you think it best, sell the wreck as it lies
 The wreck is to be sold
 It is decided to sell the wreck by auction
 Customs authorities have sold the wreck
 Customs authorities have sold all goods salvaged from the wreck
 Some pieces of wreck have been picked up — supposed to have belonged to —, do you know anything of her
 Reports having fallen in with the —, which was a complete wreck; all lives saved
 Reports having fallen in with the —, which was a complete wreck; fate of the crew (and passengers) unknown
 Reports having fallen in with the —, which was a complete wreck; took off — of the crew (and passengers), — of the crew (and passengers) previously lost

Wreckage.

Wreckage evidently part of —
 Wreckage of every description continues to come in
 Various wreckage has been found at —, recognised as belonging to the —
 No other wreckage

Wrecked.

Is wrecked at —
 Is reported wrecked at —
 Was totally wrecked during a snowstorm
 Totally wrecked during a terrific gale
 Has been totally wrecked at —, crew saved
 Has been totally wrecked at —, crew lost

Writ.

An Admiralty writ has been placed on board
 Issue a writ
 Has (have) issued a writ against —
 Serve the writ at once
 Serve a writ at once on —
 Writ has been served (on —)
 Cannot serve writ (because —)

Write.

Write immediately
 You had better write
 Write immediately to —
 Write immediately with all particulars
 Write me (us) addressed to —
 I (we) write you addressed to —
 Write me (us) by first post (mail) full report on your market
 Write full particulars by next post (mail)
 I (we) write you full particulars
 I (we) write you full instructions

Wrong.

Is it (are they) wrong
 Is (are) entirely wrong
 I am (we are) wrong
 There is something wrong with —

Extracting and preparing

Extracting, preparing, and spinning

Extracting, preparing, spinning, and weaving

Anchor(s).

Suitable set of anchors for a vessel of — tons

Anchor(s) included

Anchor(s) not included

Anchor(s) of — cwt.

Angle iron. (See page 928.)

Without the use of angle iron

Angle iron — inches by — inches by — inches thick

Angle iron — inches by the same by — inches thick

Unequal angle irons of — united inches — inches thick

With the necessary angle iron

Made of (with) angle iron

Barge(s).

Iron barge(s) (— tons capacity)

Steel barge(s) (— tons capacity)

Belting (width in inches — × single or double).

Leather belting (width in inches — × single or double)

Cotton-canvas belting (width in inches — × — ply)

Flax-canvas belting (width in inches — × — ply)

Indiarubber belting (width in inches — × — ply)

Woven belting (width in inches —)

With the necessary belting

Include the necessary belting

Shall I (we) send the necessary belting

Please send the necessary belting

No belting required

Bessemer plant (for steel-making) (— tons per charge).

Blanket-making machinery (— pairs of blankets per day).

Bleaching plant.

Blower(s) (— cubic feet air per minute).

With the necessary blower(s) (— cubic feet air per minute)

Without blower(s) (— cubic feet air per minute)

Blower(s) suitable for — (— cubic feet air per minute)

'Root' blower (— cubic feet air per minute)

'Baker' blower (— cubic feet air per minute)

'Root,' 'Baker,' or other pressure blower (— cubic feet air per minute)

Blower(s) or fan(s) (— cubic feet air per minute)

Bobbin-making plant.

Boiler composition for coating.

Boiler composition for preventing incrustation.

Boiler-makers' plant.

The following boiler-makers' plant

Boiler(s). (See page 97.)

Cornish boiler(s) (— feet long × — feet diameter)

Lancashire boiler(s) (— feet long × — feet diameter)

Builders' plant.

The following builders' plant

Caisson(s).

Dock-gate caisson(s)
 Caisson(s) for sinking bridge piers (&c.)

Calendering plant.

Calico-printing plant (— pieces per day).

Candle-making plant (— lbs. per day).

Canister-making plant. (See Hollow-ware-making Machinery.)

Capstan(s).

Steam
 Hand
 Steam capstan(s) for trawler(s)

Carpet-making machinery.**Cask-making machinery.**

For making tight (watertight) barrels or casks (size — inches high x — inches diameter)
 For making packing barrels (size — inches high x — inches diameter)

Castings.

Broken castings
 Several castings broken
 The following casting(s) broken
 What description of castings
 The castings must be 'vertical cast'
 The castings must be from loam
 The castings must be of —
 The castings being taken at £ — per ton
 Annealed or mall-iron castings
 Steel castings
 Crucible-steel castings

Cement.

Portland
 Roman
 Keen's
 With the necessary cement
 With sufficient Portland cement to make the necessary concrete

Centrifugal pumping machinery (to raise — gallons per minute — feet high).

Centrifugal pumping machinery with steam power (to raise — gallons per minute — feet high)
 Centrifugal pumping machinery without steam power (to raise — gallons per minute — feet high)
 Centrifugal pumping machinery with cattle gear (to raise — gallons per minute — feet high)

Cylinder(s)—continued.

Intermediate cylinder(s) (— inch diameter)
 For a given capacity of cylinder
 For a given diameter of cylinder
 Cylinder(s) too large (should be — inch diameter × — inch stroke)
 Cylinder(s) too small (should be — inch diameter × — inch stroke)
 Two cylinders
 Three cylinders
 Cylinders side by side
 Cylinders tandem

Diameter.
 What is (are) the diameter(s)
 Diameter of cylinder(s) — inches — stroke
 Diameters of cylinders — and — inches respectively, stroke — inches
 The diameter(s) is (are) — inches
 The diameter(s) is (are) too large
 The diameter(s) is (are) too small
 The 'horse-power' is not definite enough; give the diameter(s) of cylinder(s) (and stroke)

Disintegrator(s).

—'s patent disintegrator(s)
 If you recommend (the) disintegrator(s)
 Can you recommend (the) disintegrator(s)
 I (we) can recommend (the) disintegrator(s)
 I (we) cannot recommend (the) disintegrator(s)
 To be used in conjunction with disintegrator(s)
 Having been passed through the disintegrator
 To replace a disintegrator
 Disintegrator to treat —, in quantity of about — tons per day

Distilling apparatus (for sea-water).

To produce — gallons fresh water per hour

Distilling plant (for spirits, &c.) (to treat — gallons 'wash' per day).

Distilling plant for — (to produce — gallons per day)
 Distilling plant for rum (to produce — gallons per day)
 Distilling plant for whisky (to produce — gallons per day)
 Distilling plant for brandy (to produce — gallons per day)
 Distilling plant for gin (to produce — gallons per day)
 With a proportionate rum-distilling plant

Dock machinery.

The following dock machinery

Dredger(s) (raising — tons per hour).

Dredging punt(s) for hand power (raising — tons per hour)
 Steam dredger(s) (raising — tons per hour)
 Steam 'ladder' dredger(s) (raising — tons per hour)
 Steam dredger(s) on the bucket or 'grab' principle (raising — tons per hour)
 Steam dredger(s) on the suction principle (raising — tons per hour)
 Hopper dredger(s) (raising — tons per hour)
 Steam hopper dredger(s) (raising — tons per hour)
 Want a dredger immediately (raising — tons per hour)
 Dredger must be self-propelling (raising — tons per hour)
 Dredger must be self-propelling and be capable of carrying its own mud out to sea and discharging (raising — tons per hour)

Hire a dredger (raising — tons per hour)

Dredger(s)—continued.

Purchase a dredger (raising — tons per hour)
 Shall be able to do without a dredger
 Fear we shall have to have (a) dredger(s)
 What dredger(s) do you recommend
 I (we) recommend steam dredger(s) on the ladder principle (raising — tons per hour)
 I (we) recommend steam dredger(s) on the 'grab' principle (raising — tons per hour)
 I (we) recommend steam dredging punt(s) (raising — tons per hour)
 The most modern and improved dredger (raising — tons per hour)
 Cannot hire (a) dredger(s)
 Dredger(s) broken down
 Dredger(s) in full work
 To what maximum depth is the dredger to work
 The dredger will (is to) work to depth of — feet

Dyers' plant.**Dynamo(s).**

Gramme dynamo(s)
 What type of dynamo(s)
 Dynamo(s) of — candle power for arc light
 Dynamo(s) of — candle power for incandescent lights
 Low-speed dynamo(s)
 Dynamo(s) and steam power for same and all connections

Electric-cable making and wire-insulating plant.**Electric-lighting plant.**

Arc lighting plant for — lamps (of — candle power each)
 Incandescent lighting plant for — lamps (of — candle power each)
 Portable electric-light plant for — arc lamps
 Portable electric-light plant for — incandescent lamps

Electro-plating plant.**Elevator(s) to raise to height of — feet.**

Chain and bucket elevator(s) (to raise to height of — feet)
 Belt and bucket elevator(s) (to raise to height of — feet)
 Screw elevator(s) (to raise to height of — feet)
 Raff wheel(s) (to raise to height of — feet)
 Hydraulic elevator(s) (to raise to height of — feet)
 With the necessary elevator(s) (to raise to height of — feet)
 What type of elevator(s) (to raise to height of — feet)
 Elevator(s) to raise — lbs. per hour (to raise to height of — feet)

Exclusive of elevator(s) (to raise to height of — feet)

Emery-wheel tool(s).

Emery-wheel machine(s) for flat grinding
 Emery-wheel machine(s) for curved or circular work
 Emery-wheel machine(s) for saw sharpening and gulleting
 Emery-wheel machine(s) for —
 By means of emery-wheel machine(s)

Engine(s). (See page 287.)

Single-cylinder horizontal engine(s) high pres. (— ind. H.P.)
 Single-cylinder vertical engine(s) high pres. (— ind. H.P.)
 Coupled vertical engine(s) high pressure (— ind. H.P.)
 Coupled horizontal engine(s) high pressure (— ind. H.P.)
 Single-cylinder condensing engine(s) horizontal (— ind. H.P.)
 Single-cylinder condensing engine(s) vertical (— ind. H.P.)
 Tandem compound condensing engine(s) ver. (— ind. H.P.)
 Tandem compound condensing engine(s) hori. (— ind. H.P.)
 Tandem compound non-conden. engine(s) hori. (— ind. H.P.)

CODENO	CODE WORDS	
50368	<i>Apomazar</i>	Engine(s) — <i>continued.</i> Coupled compound condensing engine(s) hori. (— ind. H.P.)

50376	<i>Apopaste</i>	Compound traction engine(s) (— indicated H.P.)
50377	<i>Apopemos</i>	Winding engine(s) (— indicated H.P.)
50378	<i>Apophane</i>	Vertical combined engine(s) and boiler(s) (— ind. H.P.)
50379	<i>Apophasis</i>	Vertical engine(s) and loco-type boiler(s) (— ind. H.P.)
50380	<i>Apophonie</i>	Horizontal engine(s) and Cornish boiler(s) (— ind. H.P.)
50381	<i>Apophrade</i>	Condensing engine(s) and Lancashire boiler(s) (— ind. H.P.)
50382	<i>Apophyge</i>	Compound engine(s) and Lancashire boiler(s) (— ind. H.P.)
50383	<i>Apopiras</i>	Compound engine(s) and loco-type boiler(s) separate (— indicated H.P.)
50384	<i>Apoplecta</i>	Surface-condensing engine(s) (— indicated H.P.)
50385	<i>Apoplectis</i>	Jet condensing engine(s) (— indicated H.P.)
50386	<i>Apoplexy</i>	High-pressure or non-condensing engine(s) (— ind. H.P.)
50387	<i>Apopsis</i>	Compound non-condensing engine(s) (— indicated H.P.)
50388	<i>Apoptose</i>	Compound condensing engine(s) (— indicated H.P.)
50389	<i>Apoqueis</i>	Crank overhead engine(s) (— indicated H.P.)
50390	<i>Aporcabas</i>	Wall engine(s) (— indicated H.P.)
50391	<i>Aporcaria</i>	Beam engine(s) non-condensing (— indicated H.P.)
50392	<i>Aporiae</i>	Beam engine(s) condensing (— indicated H.P.)
50393	<i>Aporiatur</i>	Diagonal engine(s) (— indicated H.P.)
50394	<i>Aporismas</i>	Diagonal engine(s) two-cylinder (— indicated H.P.)
50395	<i>Aporon</i>	Three-cylinder engine(s) (— indicated H.P.)
50396	<i>Aporosa</i>	Six-cylinder engine(s) (— indicated H.P.)
50397	<i>Aportillas</i>	Rotary engine(s) (— indicated H.P.)
50398	<i>Aportille</i>	Engine(s) work(s)
50399	<i>Aportuxas</i>	Engine(s) work(s) satisfactorily
50400	<i>Aposentas</i>	Engine(s) does (do) not work satisfactorily
50401	<i>Aposepsie</i>	If the engine(s) is (are) —
50402	<i>Aposicion</i>	If the engine(s) is (are) economical and well built
50403	<i>Apositie</i>	If the engine(s) is (are) cheap
50404	<i>Apositique</i>	If the engine(s) is (are) cheap and fairly economical of fuel
50405	<i>Apositos</i>	If the engine(s) work(s) satisfactorily
50406	<i>Aposkeme</i>	If the engine(s) will do of the — type
50407	<i>Apospleni</i>	Include engine power (engine boiler and connections) if you can do at £ — ; if not, omit
50408	<i>Aposta</i>	Hoisting engine(s) (— ton lift direct from barrel at — feet per minute)
50409	<i>Apostabas</i>	Engine(s) to suit existing boiler(s) (ind. H.P. — ; working pressure — lbs.)
50410	<i>Apostamos</i>	Existing engine(s) (— indicated H.P.)
50411	<i>Apostasen</i>	Alter(ing) existing engine(s)
50412	<i>Apostasy</i>	Additional engine(s) (— indicated H.P.)
50413	<i>Apostaxis</i>	Additional engine(s) exactly similar to existing engine(s)
50414	<i>Apostel</i>	Right-hand engine(s)  (i.e. flywheel on the right looking from the cylinder)
50415	<i>Aposthume</i>	Left-hand engine(s)  (i.e. flywheel on the left, looking from the cylinder)
50416	<i>Apostills</i>	Engine(s) is (are) wrong-handed for us; we require a — hand engine
50417	<i>Apostolat</i>	You must alter building to suit engine(s)
50418	<i>Apostoles</i>	Cannot start engine(s) on account of —

CODE NO CODE WORDS

50419	<i>Apostolum</i>	Engine(s)—continued. Engine(s) require(s) heavier flywheel for my (our) work ; please forward one at once, at my (our) expense
50420	<i>Apostura</i>	Indicate the engine(s)
50421	<i>Aposures</i>	Have indicated the engine(s) (—— H.P. indicated)
50422	<i>Apotamia</i>	Cannot indicate the engine(s)
50423	<i>Apotaphe</i>	I am (we are) altering the set of —— valve(s) on the engine(s)
50424	<i>Apoteia</i>	One of the engines only
50425	<i>Apotegmas</i>	All the engines
50426	<i>Apotencio</i>	Cannot erect the engine(s) on account of ——
50427	<i>Apotheis</i>	The engine(s) has (have) too much ——
50428	<i>Apothegm</i>	Engine(s) damaged by ——
50429	<i>Apotheme</i>	Engine(s) not powerful enough
50430	<i>Apotheose</i>	Engine(s) gave way on starting
50431	<i>Apotheque</i>	Triple-expansion surface condensing engine(s)
50432	<i>Apotreis</i>	With suitable engine(s) and boiler(s) and connections
50433	<i>Apotrepsis</i>	With suitable engine(s)
50434	<i>Apoucar</i>	Is (are) engine(s) included
50435	<i>Apayaba</i>	Gas engine(s) (—— nominal H.P.)
50436	<i>Apayaras</i>	'Otto' gas engine(s) (—— nominal H.P.)
50437	<i>Apayare</i>	'Bischopp' gas engine(s) (—— nominal H.P.)
50438	<i>Apayos</i>	Hot-air or caloric engine(s) (—— nominal H.P.)
50439	<i>Apozema</i>	'Buckett' caloric engine(s) (—— nominal H.P.)
50440	<i>Aposimare</i>	'Ryder' hot-air engine(s) (—— nominal H.P.)
50441	<i>Appagando</i>	With suitable gas engine(s) (—— nominal H.P.)
50442	<i>Appagare</i>	With suitable hot-air engine(s) (—— nominal H.P.)
50443	<i>Appagarmi</i>	With suitable water engine(s) (pres. of water available —— lbs.)
50444	<i>Appagato</i>	Water-pressure engine(s) (pres. of water available —— lbs.)
50445	<i>Appagava</i>	What type of engine(s)
50446	<i>Appaghi</i>	More powerful engine(s)
50447	<i>Appagollo</i>	Less powerful engine(s)
50448	<i>Appaiavi</i>	Higher speed engine(s)
50449	<i>Appaired</i>	Slower running engine(s)
50450	<i>Appaleso</i>	Cheaper engine(s)
50451	<i>Appalled</i>	Higher class engine(s)
50452	<i>Appalmato</i>	Engine(s) of the —— type
50453	<i>Appalment</i>	Very economical engine(s)
50454	<i>Appalltone</i>	Fairly economical engine(s)
50455	<i>Apparatrix</i>	Engine(s) must be cheap, economy of fuel no object
50456	<i>Appareil</i>	Engine(s) of the —— type preferred, but open to take other
50457	<i>Apparelho</i>	Engine(s) must be of the —— type
50458	<i>Apparenter</i>	I (we) leave selection of engine(s) to you
50459	<i>Apparenza</i>	What engine(s) do you recommend
50460	<i>Apparieur</i>	Carding engine(s) (—— inches wide)
50461	<i>Apparisco</i>	Portable or fixed engine(s) (—— indicated H.P.)
50462	<i>Apparitor</i>	Portable or semi-portable engine(s) (—— indicated H.P.)
50463	<i>Apparoir</i>	Portable, semi-portable, or fixed engine(s) (—— ind. H.P.)
50464	<i>Apparu</i>	'Undertype' or other semi-fixed engine(s) (—— ind. H.P.)
50465	<i>Apparvero</i>	Pumping engine(s) (to raise —— lbs. water per hour —— feet high)
50466	<i>Appassire</i>	Combined with steam engine on same bed-plate
50467	<i>Appassito</i>	Combined with steam engine and boiler on same bed-plate
50468	<i>Appassiva</i>	Without engine(s)
50469	<i>Appassoni</i>	Blowing engine(s) (—— thousand cubic feet air per hour)
50470	<i>Appats</i>	Vacuum-pumping engine(s)
50471	<i>Appauvir</i>	Rolling-mill engine(s)
50472	<i>Appaying</i>	Reversing engine(s)
50473	<i>Appeach</i>	Land engine(s)
50474	<i>Appearers</i>	Engine(s) not exceeding —— H.P. nominal
50475	<i>Appectoras</i>	Engine(s) of not less than —— H.P. nominal
50476	<i>Appedada</i>	Twin engine(s)

CODE No	CODE WORDS

Factory(ies)—continued.

Propose starting a factory for making —

The chief factories in the district

Try all the chief factories in your district

The necessary plant for a — factory

Fan(s).

Blowing fan(s) (capacity — cubic feet air per minute)

Exhausting fan(s) (capacity — cubic feet air per minute)

Ventilating fan(s) (capacity — cubic feet air per minute)

‘Waddle’ ventilating fan(s) with engine combined (capacity — cubic feet air per minute)

‘Guibal’ ventilating fan(s) with engine combined (capacity — cubic feet air per minute)

Fan(s) with engine(s) combined (capacity — cubic feet air per minute)

With suitable fan(s) (capacity — cubic feet air per minute)

Is (are) fan(s) included

What type of fan

Fan(s) or blower(s)

Would you recommend fan(s) or blower(s)

If you can recommend fan(s) (the fan)

If you can recommend blower(s) (the blower)

Feed-water heater(s). (See Fuel Economiser.)

Would suggest the use of feed-water heater

Can recommend the ‘—’ feed-water heater

Do you advise the use of a feed-water heater

With suitable feed-water heater(s)

Is (are) feed-water heater(s) included

Feed-water heater and cleanser combined

Felt (— square yards).

Felt for roofing (— square yards)

Felt for covering boilers, &c. (— square yards)

Covered with felt

Covered with felt and lagged with dark wood and brass bands

Covered with felt and lagged with sheet steel (iron)

Covered with asbestos and felt

With the necessary felt for covering (roofing) (— square yds.)

Fencing (— yards lineal).

Wire fencing (— yards lineal)

Barbed-wire fencing (— yards lineal)

Fencing wire (— yards lineal)

Barbed fencing wire (— yards lineal)

What type of fencing

Barb-wire fencing with iron posts complete (— yds. lineal)

Barbed-wire fencing for fitting to wood posts (— yds. lineal)

Wire fencing with iron posts complete (— yards lineal)

Wire fencing for fitting to wood posts (— yards lineal)

Iron-hurdle fencing (— yards lineal)

Iron-bar fencing (— yards lineal)

Wrought-iron railing (— yards lineal)

Cast-iron railing (— yards lineal)

Ornamental wrought-iron fencing (— yards lineal)

Ornamental cast-iron fencing (— yards lineal)

A cheap fencing (— yards lineal)

Filter(s) (capacity — gallons per hour).

Domestic filter(s) (capacity — gallons per hour)

Service filter(s) (capacity — gallons per hour)

Large-supply filter(s) (capacity — gallons per hour)

Reservoir or waterworks’ station filter(s) (capacity — gallons per minute)

Feed-water filter(s) (capacity — gallons per hour)

Grinding mills in hurst(s) (— pairs stones — inch dia.)

Iron work and stones for mill(s) to mount on wood frame(s)

(— pairs stones — inch diameter)

Portable flour mill

Portable flour mill and dresser combined

Flour-dressing machine(s)

'Silk' dressing machine(s)

'Wire' dressing machine(s)

Elevator(s)

Elevator(s) and transmitter(s)

'Transmitters(s) or creeper(s)

Wheat separator(s)

Smutter(s)

Wheat cleaner(s)

Machine(s) for —ing the wheat

Machine(s) for —ing the flour

Millstone(s) (— inch diameter)

— pairs of stones (— inch diameter)

— pairs of Derbyshire stones (— inch diameter)

— pairs of French Burr stones (— inch diameter)

— pairs of stones, one Derbyshire, one French Burr (— inch diameter)

Roller grinding mill(s) (capacity — bushels per hour [each])

Complete flour mill(s) on the roller system

—'s patent roller mill(s) system

With the necessary dressing machinery

How many pairs of stones

With one pair of stones (— inch diameter)

With two pairs of stones (— inch diameter)

With three pairs of stones (— inch diameter)

With four pairs of stones (— inch diameter)

With — pairs of stones (— inch diameter)

Exclusive of stones

Exclusive of dressing machinery

Dressing machinery on the — principle (—'s system)

What type of mill

On the roller system

Not on the roller system

Forge(s).

Forge(s) or smiths' hearth(s)

Portable forge(s) jobbing

Portable forge(s) small, riveting

Portable forge(s)

Hearth(s) with hood(s)

Wrought-iron hearth(s)

Cast-iron hearth(s)

All necessities for a forge

All necessities for a large forge

All necessities for a small forge

All necessities for a jobbing forge

All necessities for a suitable forge

Forging machine(s).

Forging machine(s) for making —

Forging machine(s) for making bolts and nuts

Forging machine(s) for making rivets

—'s patent forging machine

Fuel economiser(s).

Green's economiser(s) (— pipes)

Lowcock's economiser(s) (— pipes)

Fuel economiser(s)—continued.

Fuel economiser(s) consisting of water-heater in the waste gases

Fuel economiser(s) on the smoke-consuming principle

Fuel economiser(s) on the — principle

What type of fuel economiser(s)

With suitable fuel economiser(s)

Would suggest — economiser(s)

If with fuel economiser, £ — extra

If with fuel economiser instead of one of the boilers, £ —

Galvanised iron.

Galvanised corrugated iron (— tons)

Galvanised corrugated sheets (— inches × — inches × — w.g.)

Fittings of galvanised iron

All ironwork galvanised

All ironwork to waterline galvanised

Galvanised iron or copper

Galvanised iron or brass

Or galvanised iron

Is it (are they) to be galvanised

Galvanised sheets

If galvanised

Gasworks plant.

Retort(s)

Retort bench(es)

Hydraulic main(s)

Retort fitting(s)

Retort fronts

Retort fronts, fittings, and hydraulic main(s)

Purifier(s)

Scrubber(s)

Gasholder(s) (—,000 cubic feet)

Complete gas-making plant for —,000 cubic feet per day

Oil gas-making apparatus or plant (—,000 cubic feet per day)

Gauge.

B. W. G. or Birmingham wire gauge

S. W. G. or 1884 New Standard wire gauge

What gauge

Plate gauge

Any suitable gauge

Gauge as customary

Gauge(s) (template[s]) must be sent

You had better send gauge of existing —

Built to gauge or template

Of a thicker (wider) gauge

Of a thinner (narrower) gauge

Gear(s). (See page 338.)

Horse and cattle gear(s)

Cattle gear(s)

Mule gear(s)

Pony gear(s)

One-horse gear(s)

Two-horse gear(s)

Three-horse gear(s)

Four-horse gear(s)

One-bullock gear(s)

Two-bullock gear(s)

Three-bullock gear(s)

Four-bullock gear(s)

Indiarubber suction hose with wire inside (— inch internal diameter)

Canvas delivery hose (— inch internal diameter)

Canvas suction hose with wire (— inch internal diameter)

Canvas delivery hose, lined indiarubber (— inch internal diameter)

Canvas suction hose, lined indiarubber and wired (— inch internal diameter)

Leather delivery hose (— inch internal diameter)

Leather suction hose with wire (— inch internal diameter)

Tanned delivery hose (— inch internal diameter)

Tanned suction hose with wire (— inch internal diameter)

Delivery hose of — (— inch internal diameter)

Suction hose of — with wire inside (— inch internal diameter)

With the necessary hose (— inch internal diameter)

With the necessary hose and fittings (— inch internal diameter)

What kind of hose

Leather or indiarubber hose (— inch internal diameter)

Leather or canvas (tanned) hose (— inch internal diameter)

Indiarubber or canvas hose lined indiarubber (— inch internal diameter)

If the hose is — enough

Hosiery machinery.**Hydraulic.**

I (we) recommend hydraulic

Is it (are they) to be hydraulic

Not to be hydraulic

Cannot recommend hydraulic

If hydraulic the price would be £—

Hydraulic will be more expensive

Please quote for hydraulic

Either hydraulic or geared, as preferable

Hydraulic ram(s) (fall — feet, lift — feet, quantity per hour — gallons).

Single-action ram(s) (fall — feet, lift — feet, quantity per hour — gallons)

Double-action ram(s) (fall — feet, lift — feet, quantity per hour — gallons)

Hydraulic ram(s) by the following maker(s) (fall — feet, lift — feet, quantity per hour — gallons)

Hydraulic ram(s) and pipes complete

Hydro-extractor(s) or Centrifugals (— inches diameter).

Hydro-extractor(s) for sugar (— inches diameter)

Hydro-extractor(s) for chemicals (— inches diameter)

Hydro-extractor(s) for laundry use (— inches diameter)

Hydro-extractor(s) for — (— inches diameter)

With the necessary hydro-extractor(s) (— inches diameter)

Overdriven hydro-extractor(s) (— inches diameter)

Underdriven hydro-extractor(s) (— inches diameter)

Hydro-extractor(s) with steam engine(s) combined (— inches diameter)

Ice-making machinery.

Ice-making machine(s) (— lbs. ice per hour)

Ice-making machine(s) and steam power (— lbs. ice per hour)

Indiarubber goods.

Mechanical

Clothing

Sundries

Indiarubber-manufacturing plant

Dough machine(s)

Vulcanising pan(s)

Injector(s) (capacity — gallons per hour).

Lifting and forcing injector(s) (capacity — gallons per hour)

Non-lifting injector(s) (capacity — gallons per hour)

Giffard injector(s) (capacity — gallons per hour)

Exhaust injector(s) (capacity — gallons per hour)

—'s patent injector(s) (capacity — gallons per hour)

Automatic injector(s) (capacity — gallons per hour)

'Hancock' inspirator(s) (capacity — gallons per hour)

Locomotive injector(s) (capacity — gallons per hour)

What type of injector (capacity — gallons per hour)

One injector included

Two injectors included

Injector and feed-pump included

Injector and independent donkey-pump included

Two injectors and independent donkey-pump included

Two injectors and feed-pump included

Iron. (See page 909.)

Will cast iron be permitted

No cast iron permitted

Cast iron only to be used for the —

Cast iron all except the —

Entirely of cast iron

Of malleable cast iron or steel

Of iron or steel

Partly of iron and partly of timber

Of Bowling iron

Of Low Moor iron

Of Low Moor or Bowling iron

Galvanised iron

Iron with steel face(s) (edge[s])

Is it (are they) to be of iron or —

Of wrought iron

Of cast iron

Of wrought or cast iron

Bound with iron

Shod with iron

Hooped with iron

Fastened with iron

Please say whether wrought or cast iron

No wrought iron

Wrought iron to be used only for the —

Wrought iron all except the —

Entirely of wrought iron

The following of wrought iron

The following of cast iron

About what quality of iron

Tough quality of iron

Ductile quality of iron

Tough and ductile quality of iron

Soft and ductile quality of iron

Welding quality of iron

Merchant (ordinary) iron

Bar iron

Plate iron

Sheet iron

T iron**L** angle iron

Lift—continued.

Lift — feet

To lift from — feet below groundline

To lift at quick speed

To lift at moderate speed

To lift at slow speed

To lift the maximum load at speed of — feet per minute

Linen machinery. (See Flax-manufacturing Machinery.)**Linoleum-making plant** (production — square yards per day).

Linoleum-making plant for widths up to — ins. (production — square yards per day)

Locomotive engine(s) (— inch cylinders — inch gauge).

Tank locomotive (— inch cylinders — inch gauge)

Tender locomotive (— inch cylinders — inch gauge)

Shunting locomotive (— inch cylinders — inch gauge)

Main line locomotive (— inch cylinders — inch gauge)

Express locomotive (— inch cylinders — inch gauge)

Bogie locomotive (— inch cylinders — inch gauge)

Goods locomotive (— inch cylinders — inch gauge)

Passenger locomotive (— inch cylinders — inch gauge)

Contractor's tank locomotive (— inch cylinders — inch gauge)

Passenger tank locomotive (— inch cylinders — inch gauge)

6-coupled tank locomotive (— inch cylinders — in. gauge)

4-coupled tank locomotive (— inch cylinders — in. gauge)

4-coupled bogie tank locomotive (— inch cylinders — inch gauge)

Passenger locomotive with tender (— inch cylinders — inch gauge)

Goods locomotive with tender (— inch cylinders — inch gauge)

Express locomotive with tender (— inch cylinders — inch gauge)

Express single locomotive with tender (— inch cylinders — inch gauge)

4-coupled locomotive with tender (— inch cylinders — inch gauge)

6-coupled goods locomotive with tender (— inch cylinders — inch gauge)

Wood-burning locomotive (— inch cylinders — inch gauge)

Locomotive to draw — tons gross, up a gradient of 1 in —; not starting on that gradient

Locomotive capable of starting with a load of — tons gross on a gradient of 1 in —

Line to be worked by locomotive(s)

What type(s) of locomotive(s)

Heavy and powerful locomotive(s).

Locomotive(s) as used on the — line(s)

Light locomotive(s)

Geared locomotive(s) (gross load — tons, gradient 1 in —)

Low-water alarm(s) for boiler(s).**Lubricators.**

Lubricators for engine cylinder(s) (capacity — pint[s])

Lubricators for bearings, &c.

Lubricators 'visible drop' or 'sight-feed' for engine cylinder(s) (capacity — pint[s])

With the necessary lubricator(s)

Machine tool(s) for metal.

Metals—continued.

Bronze in ingot
 Antifriction metal in ingot
 Babbitt's metal in ingot
 Muntz metal in ingot
 Muntz metal in sheet for sheathing
 Muntz metal in bar or bolts
 Solder in bars, plumber's
 Solder in bars, tinman's
 Spelter, hard
 Spelter, soft

Mill furnishing.**Mineral-water machinery.**

For sodawater
 For lemonade
 For lemonade and sodawater
 For lemonade, sodawater, and ———

Mining machinery.

What kind of mining machinery
 Sinking plant
 All kinds of mining machinery

Mixing machine(s).

Mixing machine(s) for ———

Mortar mill(s) (—— inch diameter of pan).

Under driven by belt (—— inch diameter of pan)
 Over driven by belt (—— inch diameter of pan)
 Combined with engine and boiler on same bedplate (—— inch diameter of pan)
 Combined with engine and boiler on same bedplate mounted on wheels (—— inch diameter of pan)
 Portable mortar mill to drive by belt (—— inch diameter of pan)

Motor carriages.

Phaeton with 6 B.H.P. two-cylinder motor to seat four passengers, speed ——— miles per hour
 Waggonette with 6 B.H.P. two-cylinder motor to seat six passengers, speed ——— miles per hour
 Waggonette with 6 B.H.P. two-cylinder motor to seat two persons in front and four at back, speed ——— miles per hour
 Waggonette for public service, 6 B.H.P. two-cylinder motor, to carry eleven passengers including the driver, speed ——— miles per hour
 Waggonette with 12 B.H.P. four-cylinder motor to seat two persons in front and four at back, speed ——— miles per hour
 Waggonette with hood, fitted with 12 B.H.P. four-cylinder motor, to seat two persons in front, hind part as a luggage cart, speed ——— miles per hour
 Waggonette fitted with 6 B.H.P. two-cylinder motor to seat two persons in front and four at back, speed ——— miles per hour
 Tonneau carriage fitted with 6 B.H.P. two-cylinder motor to seat two persons in front and two or three behind, speed ——— miles per hour
 Covered omnibus fitted with 12 B.H.P. four-cylinder motor to seat sixteen passengers, speed ——— miles per hour
 Public service carriage fitted with 12 B.H.P. four-cylinder motor to seat fourteen passengers and driver, speed ——— miles per hour
 Delivery van fitted with 12 B.H.P. four-cylinder motor to carry ——— cwt., speed ——— miles per hour
 Parcels van with covered top fitted with $5\frac{1}{2}$ B.H.P. two-cylinder motor to carry ——— cwt., speed ——— miles per hour

Ore-dressing machinery—continued.

- Complete plant for dressing silver-lead ore (— tons ore treated per day)
 Complete plant for dressing lead ore (— tons ore treated per day)
 Complete plant for dressing tin ore (— tons ore treated per day)
 Complete plant for dressing — ore (— tons ore treated per day)
 Ore-dressing machinery on —'s system (— tons ore treated per day)
 The most modern and efficient ore-dressing machinery (— tons ore treated per day)
 What type of ore-dressing machinery
 Send the necessary ore-dressing machinery
 Jiggers
 Buddles
 Jiggers and buddles
 Crushing rolls
 Classifier(s)
 With the necessary classifier(s)
 Trommel(s)
 Launder(s)
 Stamps
 Californian stamps
 Cornish stamps
 Pneumatic stamps
 Amalgamating pan(s) on —'s principle
 By the amalgamating process
 Complete plant for extracting gold from quartz by the amalgamating process (to treat — tons quartz per day)
 With the necessary ore-dressing plant

Packing. (See page 508.)

- Engine packing
 Asbestos packing
 Asbestos and cotton packing
 Asbestos and mica packing
 Asbestos and indiarubber packing
 Indiarubber case packing
 Hemp packing
 Cotton packing
 Cotton and tallow packing
 Metallic packing
 —'s patent metallic packing
 With (—'s) patent metallic packing

Paintmill(s).**Papermaking appliances and machinery.**

- Complete papermaking plant
 Rag engine(s)
 Rag duster(s)
 Paper machine(s)
 Rag boiler(s)
 Complete plant for making the following kind(s) of paper
 Paper-making plant by the following maker(s) —

Paraffin plant.

- Paraffin refinery plant

Patent-fuel plant.

- Complete plant for making patent fuel of small-coal and pitch
 Complete plant for making patent fuel of small-coal and clay
 Complete plant for making patent fuel of —
 Briquette machine(s)

Pipe(s)—continued.

With the necessary copper pipe(s) (— inches internal diam.)
 With the necessary copper pipe(s) and connections (— inches internal diameter)

Hydraulic pipe(s) (— inches internal diameter)

Wrought-iron hydraulic pipe(s) (— inches internal diam.)

Cast-iron hydraulic pipe(s) (— inches internal diameter)

Steel hydraulic pipe(s) (— inches internal diameter)

Cast-iron rainwater pipe(s) (— inches external diameter)

Cast-iron rainwater pipe(s) and fittings (— inches external diameter)

Sheet-iron stove pipes (— inches external diameter)

Drain pipe(s) (— inches diameter)

Common earthen butt-joint drain pipe(s) (— inches diam.)

Socketted glazed earthen drain pipe(s) (— inches diameter)

Socketted glazed earthen drain pipes and bends, &c. (— inches diameter)

Solid-drawn pipes (— inches internal diameter)

Send the necessary pipe(s) immediately (— inches internal diameter)

Send the necessary pipe(s) and fittings immediately (— inches internal diameter)

Piston(s.)

With metallic piston(s)

With —'s patent piston(s)

With — Mather & Platt's patent piston(s)

New piston(s)

Piston(s) refitted

Piston(s) want(s) refitting

Plant.

A plant of machinery &c. for —

The plant is to include steam power

The plant is to include water power, fall available being — feet

Power is not to be included in the estimate for plant

Plant to run entirely by power

Plant to run entirely by hand

Plant to run entirely by hand or power at pleasure

The plant is to include cattle power gear(s)

A small plant of machinery for —

The simplest and cheapest possible small plant for —

A medium-sized plant for —

A rather large-sized plant for —

A large-sized plant for —

A large and complete plant of the most improved description for —

A plant of about — H.P. for —

Plant to be on the — system

Fixed plant

Portable plant

The plant to be capable of subsequent enlargement

And all the plant necessary

Enlargement of plant

The plant is to be driven by means of —

The plant is chiefly intended for making —

The plant is to be specially light and no piece is to weigh more than, say — lbs. (or exceed — feet in length)

The plant to have duplicate motive power to prevent stoppages

The plant to be specially compact, as space is very limited

The plant to be self-contained

A plant exactly as supplied to — (of —)

CODE NO	CODE WORDS	
51604	<i>Arrabales</i>	Plant — <i>continued</i> .
51605	<i>Arrabbio</i>	A plant exactly as supplied to — (of —) but with —
51606	<i>Arrabona</i>	A plant exactly as supplied to — (of —) but without —
51607	<i>Arrabonis</i>	The plant to be entirely self-acting
51608	<i>Arracadas</i>	The plant will do non-automatic
51609	<i>Arrachais</i>	A second-hand plant, if possible ; if not, a new one (for —)
51610	<i>Arracheur</i>	Motive power for the plant to be obtained by burning —
51611	<i>Arrachiez</i>	What indicated horse-power will it take to drive the plant
51612	<i>Arrachons</i>	The necessary woodwork for the plant included
		The necessary woodwork for the plant to be supplied at destination
51613	<i>Arracimar</i>	Plant is wanted to commence work at once
51614	<i>Arracimo</i>	Is the plant to be — or —
51615	<i>Arracoar</i>	What length of working day have you calculated upon for putting up plant
51616	<i>Arraez</i>	Is the plant to include —
51617	<i>Arraiano</i>	The plant is to include —
51618	<i>Arraigned</i>	The plant is not to include —
51619	<i>Arraigue</i>	What system is the plant to be upon (— or —)
51620	<i>Arraiment</i>	The woodwork for the plant to be done at destination
51621	<i>Arrais</i>	All brickwork, woodwork, stonework for the plant to be supplied at destination
51622	<i>Arramblar</i>	Plate-bending machine(s). (See Machine Tools.)
51623	<i>Arramblo</i>	Platelayers' tools and appliances.
51624	<i>Arrancare</i>	With the necessary platelayers' tools and appliances
51625	<i>Arrancato</i>	Polishing machine(s).
51626	<i>Arrancava</i>	For small metal articles
51627	<i>Arranciar</i>	For stone, marble, &c.
51628	<i>Arrandello</i>	For sheet metal
51629	<i>Arrands</i>	For —
51630	<i>Arrangola</i>	Pottery-making machinery.
51631	<i>Arranjo</i>	Complete plant for making —
51632	<i>Arrantly</i>	Power. (See page 533.)
51633	<i>Arraposar</i>	Steam power
51634	<i>Arrasando</i>	Water power
51635	<i>Arraschid</i>	Wind power
51636	<i>Arrastro</i>	Hand power
51637	<i>Arratel</i>	Horse power
51638	<i>Arratclar</i>	Cattle power
51639	<i>Arraught</i>	Water and steam power
51640	<i>Arrayado</i>	Wind and steam power
51641	<i>Arrayan</i>	Hand and steam power
51642	<i>Arrayour</i>	Gas-engine power
51643	<i>Arrazoar</i>	Hot-air engine power
51644	<i>Arreaban</i>	Electric power
51645	<i>Arrearage</i>	Belt power—i.e. to be driven by belt
51646	<i>Arreaste</i>	Power self-contained or with steam power attached
51647	<i>Arrebano</i>	Power included
51648	<i>Arrebata</i>	Must have ample power
51649	<i>Arrebates</i>	Must have extra power
51650	<i>Arrebicar</i>	State what power
51651	<i>Arrebol</i>	Cannot state power
51652	<i>Arrebondo</i>	What nominal horse-power
51653	<i>Arrebujar</i>	What indicated horse-power
51654	<i>Arrebujo</i>	Nominal horse-power
51655	<i>Arrecato</i>	Indicated horse-power
51656	<i>Arrecida</i>	Brake horse-power
51657	<i>Arrecidos</i>	Effective horse-power
51658	<i>Arreciera</i>	French horse-power
51659	<i>Arrect</i>	Press(es).
51660	<i>Arrectary</i>	Screw press(es)

 Finishing press(es)
 Paper press(es)
 Bookbinders' press(es)
 Fly press(es)

Pressure.

Steam pressure (— lbs. per square inch)
 Working pressure (— lbs. per square inch)
 Hydraulic pressure (— lbs. per square inch)
 Maximum pressure (— lbs. per square inch)
 Mean pressure (— lbs. per square inch)
 Pressure in cylinder or net pressure (— lbs. per square inch)
 What is the pressure
 What is the working pressure
 What pressure is it (are they) safe for
 Breaking or bursting pressure (— lbs. per square inch)
 Pressure (— lbs. per square inch)
 Pressure (— tons per square inch)
 Pressure due to head of water (— feet)
 Pressure (— lbs. per square foot)
 Do not know the pressure
 Pressure not specified
 Leave the pressure to you

Printers' machinery and plant.**Printers' ink manufacturing plant.**

Grinding mill(s)
 Mixing machine(s)
 Oil-boiling furnace

Prospecting plant. (See Boring.)**Pulley(s) (driving) (— inches diameter).**

Complete with driving pulley(s) (— inches diameter)
 Fast and loose pulleys (— inches diameter)
 Cast-iron pulley(s) (— inches diameter)
 Wrought-iron pulley(s) (— inches diameter)
 Cast-iron split pulley(s) (— inches diameter)
 Wrought-iron split pulley(s) (— inches diameter)
 Clip pulley (— inches diameter)
 Pulleys for rope-driving (— inches diameter)

Pulley block(s) (to lift — cwt.).

Wood block(s) (to lift — cwt.)
 Iron block(s) (to lift — cwt.)
 Set(s) of iron blocks (to lift — cwt.)
 Weston's patent blocks and tackle (to lift — cwt.)
 Eade's patent blocks and tackle (to lift — cwt.)
 —'s patent blocks and tackle (to lift — cwt.)
 Snatch block(s) (— inch sheave[s])
 By means of pulley blocks
 Pulley blocks and rope fall(s) complete (— inch sheave[s])

Radius—continued.

Radius of ——— feet
 Curve of ——— feet radius
 Curve of ——— chain(s) radius
 Too small a radius
 Is radius too small
 Radius too large

Rails.

Iron rails ——— lbs. per linear yard
 Iron rails ——— kilos. per metre
 Steel rails ——— lbs. per linear yard
 Steel rails ——— kilos. per metre
 Rails in iron or steel ——— lbs. per linear yard
 Rails in iron or steel ——— kilos. per metre
 Rails ——— gauge
 Rails 4 feet 8½ inches gauge
 Rails 1-metre gauge
 Rails 3-foot gauge
 Rails 30-inch gauge
 Rails 24-inch gauge
 Rails 20-inch gauge
 Rails 18-inch gauge
 Rails of Vignolles section (—— lbs. per yard)
 Rails of bridge section (—— lbs. per yard)
 Rails of double-headed section (—— lbs. per yard)
 Rails of reversible double-headed section (—— lbs. per yard)
 Rails of flange section (—— lbs. per yard)
 Plate rails (—— lbs. per yard)
 Tram rails (—— lbs. per yard)
 New rails (—— lbs. per yard)
 Slightly defective rails (—— lbs. per yard)
 Old rails (—— lbs. per yard)
 Rails not to exceed ——— kilos. per metre
 Rails not to exceed ——— lbs. weight per linear yard
 Straight rails
 Curved rails (radius ——— feet)
 Single line of rails (1 track) (—— yards long)
 Double line of rails (2 tracks) (—— yards long)
 What gauge of rails
 What section of rails
 What weight of section of rails
 What weight and section of rails
 In what lengths must the rails be
 The rails may be in any convenient lengths as customary
 The rails must be in lengths of ——— feet
 Are the rails to be punched for fishplates
 Are the rails to be punched for spikes
 Are the rails to be supplied with chairs
 Are the rails to be supplied with fishplates and bolts
 Are the rails to be supplied with fishplates, bolts, and chairs
 The rails are to be punched for fishplates
 The rails are not to be punched for fishplates
 The rails are to be punched for fishplates, but you must await particulars by post (mail)
 The rails are to be punched for spikes (size of spike ——— inches, pitch ——— inches)
 The rails are not to be punched for spikes
 Rails to be supplied with chairs
 Rails not to be supplied with chairs
 Rails to be supplied with fishplates and bolts
 Rails not to be supplied with fishplates and bolts

Machine to make ropes up to — inches circumference down the walk

Rope and twine machinery

Rope, cord, line, and twine machinery

Rum-distilling plant. (See Distilling Plant.)**Safety.**

For safety

Factor of safety —

What factor of safety have you allowed

Factor of safety is too great

Factor of safety is too small

Factor of safety is 2

Factor of safety is $2\frac{1}{2}$

Factor of safety is 3

Factor of safety is $3\frac{1}{2}$

Factor of safety is 4

Factor of safety is $4\frac{1}{2}$

Factor of safety is 5

Factor of safety is 6

Factor of safety is 7

Factor of safety is 8

Factor of safety is 9

Factor of safety is 10

Factor of safety is 12

Safety valve(s) (— inches diameter).

With safety valve(s) (— inches diameter)

With two safety valves (— inches diameter)

With lock-up safety valve (— inches diameter)

With two lock-up safety valves (— inches diameter)

—'s patent safety valve(s) (— inches diameter)

Safety valve(s) to Board of Trade requirements (— inches diameter)

Sago plant.**Salvage appliances.**

Send salvage appliances at once (as follows) with necessary accessories

Sanitary fittings.**Screw(s).** (See pages 547 and 628.)

Screw or paddle

With the necessary screw(s)

Pitch of screw(s)

Right-hand screw(s)

Left-hand screws(s)

Screw(s) is (are) wrong handed

Screw(s) is (are) wrong handed; send reverse immediately (viz. — hand)

Secured by screws

Secured by screws; no nails to be used

Nettlefold's screws

Screw pile(s).

On screw piles

Screw propeller(s). (See Screw(s); also page 628.)

—'s patent screw propeller

With screw propeller(s)

With screw propeller(s), shafting, &c. complete

Propeller(s) has (have) too great pitch

Propeller(s) has (have) too small pitch

Propeller(s) is (are) not large enough

Propeller(s) is (are) too large

Propeller(s) is (are) not deep enough in water

CODE NO.	CODE WORDS	
52025	<i>Asarco</i>	Screw propeller(s) — <i>continued</i> . Cannot get a speed of more than ——— revolutions per minute on the propeller(s)
52026	<i>Asarelah</i>	At what speed do(es) the propeller(s) run
52027	<i>Asareros</i>	Spare propeller
52028	<i>Asargadas</i>	Cast-iron propeller(s)
52029	<i>Asarouas</i>	Wrought-iron propeller(s)

Silk-manufacturing machinery—continued.

Preparation, spinning, and weaving
 Spinning and weaving

Silk-waste machinery.**Sinking plant.**

Send sinking plant at once (consisting of —)

Size-manufacturing plant.**Slates.**

With the necessary slates
 What size slates
 'Doubles'
 'Ladies'
 'Countesses'
 'Duchesses'

Sleepers, railway (for gauge of rails of — inches).

With the necessary sleepers (for gauge of rails of — inches)
 With the necessary sleepers, chairs, and spikes (for gauge of rails of — inches)
 With the necessary metal sleepers (for gauge of rails of — ins.)
 With the necessary wood sleepers (for gauge of rails of — inches)

Are sleepers included

Sleepers included

Sleepers not included

Ready for fixing to timber sleepers, sleepers not included

Longitudinal sleepers

Longitudinal iron sleepers

Longitudinal wood sleepers

Transverse wood sleepers (for gauge of rails of — inches)

Transverse iron sleepers (for gauge of rails of — inches)

Transverse sleepers (for gauge of rails of — inches)

Wrought-iron or steel sleepers (for gauge of rails of — ins.)

Wrought-iron sleepers (for gauge of rails of — inches)

Steel sleepers (for gauge of rails of — inches)

Wood sleepers (for gauge of rails of — inches)

Cast-iron sleepers (for gauge of rails of — inches)

Glass sleepers (for gauge of rails of — inches)

Pitch of sleepers — inches

Sluice valve(s) (— inch).

With the necessary sluice valve (— inch)

Sluice valve(s) with iron faces (— inch)

Sluice valve(s) with one gun-metal face (— inch)

Sluice valve(s) with both faces of gun-metal (— inch)

Sluice valve(s) with s. and f. ends (— inch)

Sluice valve(s) with flanges (— inch)

Sluice valve(s) with socket ends (— inch)

—'s patent sluice valve(s) (— inch)

Soap-making plant.**Spare(s).**

Complete with usual spare parts ('spares')

Complete with double set spares

No spares required

We recommend spares ; shall we send a customary set

We recommend the following spares ; shall we send same

You have sent no spares ; send full set at once

Spare wearing parts only

Spare wearing and breakable parts

Springs.

On springs

All the rolling stock to have springs

Stamps. (See Ore-dressing Machinery and Hammers.)

Plant for extracting sugar from — (to treat — tons per day of 24 hours)

Plant for extracting and refining the sugar from — (to treat — tons per day of 24 hours)

Tank(s) (capacity, each, — gallons).

Wrought-iron tank(s) (capacity, each, — gallons)

Wrought-iron galvanised tank(s) (capacity, each, — gallons)

Cast-iron tanks (capacity, each, — gallons)

In iron or brickwork tank(s) (capacity, each, — gallons)

In tank(s) (capacity, each, — gallons)

Tannery plant.

Tannery plant for — skins

Tannery and currying plant

Tapioca plant.**Tea plant** (to treat — maunds per day).

Plant for tea plantation(s) (to treat — maunds per day)

Test.

What is the test

Test is too high

Test is too low

The test cannot be reduced

Reduce the test to —

Test — tons

Test — lbs. per square inch

Test — tons per square inch

Forge test

Test under steam (— lbs. per square inch)

Tested.

Must it (they) be tested

Need not be tested

Must be tested

Have tested and found satisfactory

Have tested and found defective or of insufficient strength

Testing machinery (to test to — tons).

Testing machine(s) (to test to — tons)

Testing machine(s) for — (to test to — tons)

Testing machine(s) for iron, steel, &c. (to test — tons)

Testing machine(s) for cement, &c.

Testing machine(s) for girders (to test — tons)

Testing machine(s) for cast-iron bars

Testing machine(s) for chains

Boiler prover(s)

Thick.

Not less than — inch(es) thick

Not exceeding — inch(es) thick

Too thick

Not thick enough

As thick as possible

Not thicker than absolutely necessary

Thickness.

What thickness

What thickness of metal in (at) the —

Is the thickness specified

The thickness is not specified

Leave the thickness to you

Thickness as before

Thickness of metal — inch(es)

Usual thickness

Any thickness

According to thickness

Traction engine(s)—continued.

Send agricultural locomotive engine(s) (— inch cylinder)
 Send Fowler traction engine(s) (— inch cylinder)
 Send Aveling and Porter traction engine(s) (— in. cylinder)
 Traction engine(s) to burn wood fuel (— inch cylinder)
 Traction engine(s) with spring wheels, and all the latest improvements (— inch cylinder)

Tramway(s).

For tramway(s)
 Street tramway permanent way
 Tramway engine(s) for street tramway(s)
 Street tramway(s)
 For street tramway(s)

Tube-rolling plant.

Iron tube-rolling plant
 Brass and copper tube-rolling and brazing plant
 Tube-rolling plant for — tubes

Tube(s). (See Pipes.)

Ordinary gas tube, wrought-iron (— ins. internal diameter)
 Ordinary steam tube, wrought-iron (— ins. internal diam.)
 Galvanised steam tube, wrought-iron (— ins. internal diam.)
 Galvanised gas tube, wrought-iron (— ins. internal diameter)
 Boiler tubes, wrought-iron, lap welded (— ins. external diam.)
 Boiler tubes, homo iron (— ins. external diameter)
 Boiler tubes, brass (— ins. external diameter)
 Boiler tubes, copper (— ins. external diameter)
 What is present discount off gas tube for quantity of, say — ; size(s) —

Present quotations, gas tube — per cent. discount, and $2\frac{1}{2}$ per cent. cash discount

Present quotations, gas tube — per cent. discount, and $2\frac{1}{2}$ per cent. cash dis., and an additional $2\frac{1}{2}$ per cent. commission

Condenser tubes (— inches external diameter)
 Solid-drawn copper tube(s) (— inches internal diameter)
 Solid-drawn brass tube(s) (— inches internal diameter)
 Brazed copper tube(s) (— inches internal diameter)
 Brazed brass tube(s) (— inches internal diameter)
 With brass tube(s) (— inches internal diameter)
 With iron tube(s) (— inches internal diameter)
 With steel tube(s) (— inches internal diameter)
 Weldless steel tube(s) (— inches internal diameter)
 Made of weldless steel tube(s) (— inches internal diameter)
 With the necessary tubes (— inches internal diameter)

Turbine(s).

Latest and most approved turbine(s)
 Waverley turbine(s)
 Waverley or other high-class turbine(s)
 Substituting turbine(s) for water wheel(s)
 Turbine(s) to give — H.P. on a fall of — feet ; supply of water ample
 — turbine(s) to work with — cubic feet of water per minute on — feet fall
 Can you recommend turbine(s)
 Can recommend turbine(s) for the work
 Recommend a Waverley turbine
 Recommend a Waverley or other high-class turbine
 Would you recommend one or two turbines
 Recommend two turbines of equal sizes
 Recommend two turbines of unequal sizes
 Recommend three turbines
 Recommend three or more turbines

Turbine(s)—continued.

Cannot recommend turbine(s) for such work

Cannot recommend turbine(s) for such a low fall

Recommend the substitution of turbine(s) for the water wheel(s)

Turbine(s) to cope with great variation in the supply of water

Turbine(s) to drive — (it—them) with a — feet fall;
 plenty of water

Turbine(s) to drive — (it—them) if possible; the fall avail-
 able is — feet, and supply — cubic feet per minute

Turbine(s) can get — cubic feet per minute in winter (wet
 season), and — cub. ft. per min. in summer (dry season)

Turntable(s).

With a turntable (— feet diameter)

With two turntables (— feet diameter)

Locomotive turntable(s) (— feet diameter)

Wagon turntable(s) (— feet diameter)

Turntable(s) to take — feet wheel base

Turntable(s) to take — feet wheel base and — tons weight

Twine-manufacturing machinery.

Twine-manufacturing machinery for the 'house'

Twine-manufacturing machinery for the 'walk'

Twine sizing and polishing machine(s)

Twine, line, and cord machinery

Tyres.

Railway tyres

Steel railway tyres

Iron railway tyres

With steel tyres

—'s patent tyres

Solid rolled steel tyres

Solid rolled iron tyres

Tyre-rolling machinery.**Valve(s).** (See Sluice Valves.)

Steam valve(s) (— inch)

Gas valve(s) (— inch)

Water valve(s) (— inch)

Wheel valve(s) (— inch)

Check valve(s) (— inch)

With the necessary valves (&c.) (— inch)

—'s patent valve(s) (— inch)

Wagon(s). (See Rolling Stock.)

Railway wagon(s) (to carry — cwt.)

Tip wagon(s), railway (to carry — cwt.)

Tip wagon(s), road (to carry — cwt.)

Ore wagon(s), railway (to carry — cwt.)

Open wagon(s), railway (to carry — cwt.)

Covered wagon(s), railway (to carry — cwt.)

Meat wagon(s), railway (to carry — cwt.)

Coal wagon(s), railway (to carry — cwt.)

Grain wagon(s), railway (to carry — cwt.)

Bogie wagon(s), railway (to carry — cwt.)

Timber wagon(s), railway (to carry — cwt.)

Road wagon(s), (to carry — cwt.)

Timber wagon(s), road (to carry — cwt.)

Bullock wagon(s), road (to carry — cwt.)

Railway wagon(s), for conveying — (to carry — cwt.)

Washer(s) (hole — inches diameter).

With the necessary washers (hole — inches diameter)

With the necessary bolts, nuts, and washers (hole — ins. dia.)

Black iron washers (hole — inches diameter)

Bright iron washers (hole — inches diameter)

Washer(s)—continued.

Cast-iron washer-plates (hole — inches diameter)
 With the necessary cast-iron washer-plates

Waste cotton.

Pack in cotton waste, for use at destination

Water-cart(s).

2-wheeled street watering-cart(s)

4-wheeled street watering-cart(s)

Water-carrying cart(s)

Water-crane(s).

Fixed water-crane(s)

Swing water-crane(s)

Water-crane, valve, hose, tank, pipe, and connections complete

Standard water-crane, to connect to main with swing jib and hose

Standard water-crane, to connect to main with fixed jib and hose

Water-wheels.

Overshot water-wheel(s) (— ft. diameter × — ft. breast)

Undershot water-wheel(s) (— ft. diam. × — ft. breast)

Breast water-wheel(s) (— feet diameter × — feet breast)

High breast water-wheel(s) (— ft. diam. × — ft. breast)

In place of water-wheel(s) (— feet diam. × — feet breast)

With water-wheel(s) (— feet diameter × — feet breast)

Driven by water-wheel(s) (— feet diam. × — feet breast)

In connection with existing water-wheel(s) (— feet diameter × — feet breast)

Water-wheel(s) or turbine(s)

Driven by water-wheel(s) or turbine(s)

Or water-wheel(s) if turbine(s) not available

Iron water-wheel(s) (— feet diameter × — feet breast)

Wood water-wheel(s) (— feet diameter × — feet breast)

Composite water-wheel(s) (— feet diam. × — feet breast)

Weighing machine(s) (to weigh up to — cwt.).

Weighing machine(s) for sacks, &c. (to weigh up to — cwt.)

Weighing machine(s) for barrows, &c. (to weigh up to — cwt.)

Weighing machine(s) for carts and wagons (to weigh up to — cwt.)

Weighing machine(s) for railway trucks (to weigh up to — cwt.)

Weighing machine(s) for — (to weigh up to — cwt.)

Wheel-moulding machine(s) (for wheels up to — inches diam.).

Wheel tooth-cutting machine(s) (for wheels up to — ins. dia.)

—'s patent wheel-moulding machine(s) (for wheels up to — inches diameter)

Wheels (— inches diameter).

On wheels (— inches diameter)

Iron wheels (— inches diameter)

Wood wheels (— inches diameter)

With iron wheels (— inches diameter)

With wood wheels (— inches diameter)

Iron or wood wheels (— inches diameter)

Toothed wheel(s) (— inches diameter)

Bevel wheel(s) (— inches diameter)

Bevel pinion(s) (— inches diameter)

Spur wheel(s) (— inches diameter)

Spur pinion(s) (— inches diameter)

Driving wheel(s) (— inches diameter)

Leading wheel(s) (— inches diameter)

Trailing wheel(s) (— inches diameter)

Chain wheel(s) (— inches diameter)

Wheels—continued.

Steel wheels (— inches diameter)
 Cast-iron railway wheels with chilled tread (— ins. diameter)
 Cast-iron railway wheels with steel tyres (— inches diameter)
 Wood railway wheels with steel tyres (— inches diameter)
 Spoke wheel(s) (— inches diameter)
 Disc wheel(s) (— inches diameter)
 Pairs wheels and axles complete for railway (— ins. diameter)
 Mounted on wheels, if possible
 If mounted on wheels (— inches diameter)
 If mounted on wheels £ — extra
 With anti-friction wheels

Winch(es) (to lift direct from barrel — tons).

Crab winch(es) or hand winch(es) (to lift direct from barrel — tons)
 Crab winch(es) or hand winch(es) with brake (to lift direct from barrel — tons)
 Double gear hand winch(es) with brake (to lift direct from barrel — tons)
 Single gear hand winch(es) with brake (to lift direct from barrel — tons)
 Single gear hand winch(es) without brake (to lift direct from barrel — tons)
 Steam winch(es) (to lift direct from barrel — tons)
 Horizontal steam winch(es) (to lift direct from barrel — tons)
 Diagonal steam winch(es) (to lift direct from barrel — tons)
 Vertical steam winch(es) (to lift direct from barrel — tons)
 Trawler's steam winch(es) (to lift direct from barrel — tons)
 Steam winch(es) by the following maker(s) (to lift direct from barrel — tons)
 With the necessary steam winch(es) (to lift direct from barrel — tons)

Wind engine(s).

Driven by wind engine(s)
 With wind engine(s) for driving
 For driving by wind engine(s)
 Wind engine capable of driving it (them) in light winds
 Self-regulating wind engine(s)
 Wind engine(s) to drive it (them) if feasible

***Winding engine(s)** (— inch cylinders).

Pair(s) horizontal direct-acting winding engines (— inch cylinders)
 For winding engine(s)
 Winding engines capable of lifting load of — cwt. at rate of — feet per minute

Windlass(es).

With windlass(es)
 Hand windlass(es)
 Hand ratchet-motion windlass(es)
 Steam windlass(es)
 Steam windlass(es) suitable for a vessel of — tons

Windows, iron-framed.

With iron-framed windows
 With the necessary iron frames for windows
 With the necessary iron frames and glass for windows

Wire (— S.W.G.).

Iron wire (— S.W.G.)
 Steel wire (— S.W.G.)
 Brass wire (— S.W.G.)
 Copper wire (— S.W.G.)

* Geared winding engines, see 'Hauling Engines.

52615 *Astergeva*

52616 *Astergono*

Wire—continued.

Charcoal iron wire (— S.W.G.)
 Galvanised iron wire (— S.W.G.)
 Fencing wire (— S.W.G.)
 Annealed wire (— S.W.G.)
 Iron or steel wire (— S.W.G.)
 Brass or copper wire (— S.W.G.)
 Galvanised iron, brass, or copper wire (— S.W.G.)
 Charcoal iron or mild steel wire (— S.W.G.)
 Made of wire (— S.W.G.)
 With the necessary wire (— S.W.G.)

Wire-drawing plant.

Wire-drawing plant for wire of the following metal(s) (sizes up to — S.W.G.)

Wire-rope-making plant.**Wire rope(s).**

By wire rope(s)
 With the necessary wire rope(s)
 Exclusive of wire rope(s)
 Steel wire rope (safe for — tons)
 Iron wire rope (safe for — tons)
 Galvanised iron wire rope (safe for — tons)
 Galvanised steel wire rope (safe for — tons)
 —'s patent wire rope (safe for — tons)

Wire tramway(s) (for loads of — cwt.).

By means of wire tramway(s) (for loads of — cwt.)
 For wire tramways (for loads of — cwt.)

Woodworking machinery.

Woodworking plant suitable for —
 Saw-mill plant
 Saw-mill, planing and moulding works plant
 Packing-case maker's plant
 Coachbuilder's plant
 Railway-carriage and wagon builder's plant

Woollen machinery. (See 'Cloth,' 'Worsted,' 'Wool-washing,' &c.)

Wool-spinning machinery
 Wool-weaving machinery
 Wool-spinning and weaving machinery
 Wool-spinning, weaving, and cloth-finishing machinery

Wool-washing plant.

Wool-washing machine(s)
 Wool-drying machine(s)

Worsted manufacturing plant.**Zinc.**

Sheet zinc (— S.W.G.)
 Perforated sheet zinc (— S.W.G.)
 Zinc in ingot or pig
 Scrap zinc
